

GERMAN S-100 CLASS 1/350 SCALE SCHNELLBOOT 德国S-100级鱼雷艇

Because has absorbed experience in combat action, Nazi Germany re-design their new Schnellboot base on S-388 class in 1943. The new S-100 class were equipped the modified 'Second Type' Kalotte. The main armament are two 53.3cm torpedo tubes in the upper bow. The secondary armament are the 2cm C/38 MG in bow, two 2cm C/38 MG in middle of the ship and the 3.7cm M42 Flak gun on the rear deck. After the WWII, these S-100s still service in some Europe country until early of 50s.

Nach einigen Erfahrungen im Einsatz entwickeite man die Schnellboote auf Basis der S-38B weiter. Die ab 1943 gebaute S-100 Klasse hatte eine gepanzerte Kalottenbrücke sowie eine Hauptbewaffnung von zwei 53,3cm Torpedos auf dem Vorderdeck.

Dazu kamen eine 2cm C/38 im Bug, zwei weitere davon mitschiffs und eine 3,7cm Flak 38 achtern. Nach dem zweiten Weltkrieg dienten S-100 Boote in anderen Ländern noch bis in die 1950er Jahre.
